PROFESSIONAL SUMMARY

Seeking an opportunity to contribute as a Software Developer in an organization that values innovation, learning, and growth. Experienced in building full-stack applications, backend APIs, database solutions, and workflow automations. Passionate about technology, AI, and continuous improvement. A collaborative team member who enjoys solving problems, learning from challenges, and delivering quality solutions that create value for users and businesses. Dedicated to growing alongside the organization while making meaningful technical contributions.

SKILLS

- Frontend Development (React, Next.js, JavaScript, TypeScript, HTML, CSS, SPFx)
- Backend Development (.NET 8, ASP.NET Core, Entity Framework Core)
- Database & Reporting (SQL Server, Azure SQL, Power BI, Python, Open XML SDK)
- Microsoft Technologies (SharePoint Online, SharePoint Framework (SPFx), Power Automate, Microsoft 365)
- Cloud & DevOps (Azure, Azure DevOps, CI/CD, Git)

WORK EXPERIENCE

Software Engineer - Full Time October 2025 to August 2026

366PI TECHNOLOGIES - Ranchi, India

- Built enterprise applications and business solutions using React, SPFx, ASP.NET Core, C#, SQL Server, and Power Automate for multiple client engagements.
- Developed reusable frontend components, backend REST APIs, Entity Framework Core models, and database features to support business workflows and reporting.
- Collaborated directly with clients to gather requirements, deliver Agile enhancements, troubleshoot issues, and provide production support.
- Supported Azure DevOps CI/CD deployments, release activities, debugging, and maintenance of enterprise applications.
- Worked on projects including **Fennex**, **Khelangan**, **KidCare**, and **FloCard**, contributing to application development, integrations, automation, and support.

Product and Market Analyst Intern - Internship October 2024 to November 2024; March 2025 to June 2025

MILISU INFINITY - Bengaluru, India

- Conducted primary market research and user-requirement analysis with occupational therapy centers in Bengaluru.
- Evaluated product requirements, cost-effective material alternatives, customer research, and market analysis initiatives.
- Collaborated with the product team on product development, customer research, and market analysis initiatives.

PROJECTS

Offshore Customer Data Management System

Technologies used: SPFx, React, .NET Core Web API, Azure SQL, SharePoint, OpenXML, Power BI

Developed an end-to-end offshore customer data management platform for collecting, managing, and synchronizing customer and rig information between SharePoint and Azure SQL. Built custom SPFx and React-based forms, ASP.NET Core Web APIs for CRUD operations, Power BI dashboards for reporting and analytics, and OpenXML-based Excel and Word export functionality to streamline enterprise data management and reporting processes.

EDUCATION

Bachelor of Engineering in Mechanical Engineering, 2025

RV College of Engineering, Bengaluru

Class XII, 2021

Sree Ayyappa Public School, Bokaro - 89%

Class X, 2019

Loyola School, Taldanga - 89%

CERTIFICATIONS

- Data Structures and Algorithms – Internshala

LANGUAGES

- English
- Hindi

HOBBIES

Singing, watching movies, playing cricket and football.
