PROFESSIONAL SUMMARY

Junior Software Engineer with hands-on experience building enterprise applications using C#, ASP.NET Core/.NET 8, SharePoint Framework (SPFx), React, SQL Server, and Entity Framework Core. Delivered backend APIs, SharePoint solutions, and workflow automation across four enterprise client projects while collaborating directly with clients in an Agile environment. Additional experience in data analytics using Python, SQL, and Power BI.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL, Python, C++

Backend: ASP.NET Core, .NET 8, REST APIs, Entity Framework Core

Frontend & Microsoft 365: React, SPFx, SharePoint Online, Power Automate

Cloud & DevOps: Azure, Azure DevOps, CI/CD, Git

Data: SQL Server, Power BI, Pandas, Open XML SDK

WORK EXPERIENCE

Junior Software Engineer

Oct 2025 – Present

366Pi Technologies

Ranchi, India

- Develop enterprise applications and REST APIs using C#, SQL Server, Entity Framework Core, React, and SharePoint Framework (SPFx) in a startup environment supporting multiple enterprise clients.
- Build Microsoft Power Automate workflows to automate business processes and reduce manual effort.
- Gather requirements directly from clients and deliver software enhancements within Agile sprints.
- Support Azure DevOps deployments, gaining hands-on exposure to CI/CD pipelines, debugging, and production support.

Fennex — SPFx, React, .NET 8, SQL Server, Power Automate

- Built SPFx components and backend APIs for an enterprise safety management solution; resolved production issues directly with clients.

Khelangan — C#, .NET 8, Entity Framework Core, SQL Server

- Developed backend APIs and Entity Framework models for an athlete management platform, integrating with frontend developers.

KidCare — SPFx, ASP.NET Core, SQL Server

- Built SharePoint Framework components, backend APIs, and SQL Server enhancements for a business management solution.

FloCard — ASP.NET Core, SQL Server

- Contributed to backend development, enhancements, and production support.

Product and Market Analyst Intern

Oct 2024 – Nov 2024, Mar 2025 – Jun 2025

MiliSu Infinity

Bengaluru, India

- Conducted primary market research and user requirement analysis with Occupational Therapy centers in Bengaluru.
- Evaluated product requirements and identified cost-effective material alternatives while ensuring compliance with international quality standards.
- Collaborated with the product team to support product development and market research initiatives.

PROJECTS

Offshore Customer Data Management System — SPFx, React, ASP.NET Core, SQL Server, Azure, OpenXML SDK, Power BI

- Built a SharePoint-to-Azure data management solution with an SPFx interface and ASP.NET Core backend APIs, including Excel/Word export via the OpenXML SDK.
- Designed Power BI dashboards and integrated frontend, backend, and reporting components to streamline enterprise data management.

Employee Performance & Attrition Analysis — Python, Pandas, SQL, Power BI

- Built an end-to-end analytics solution to clean, transform, and analyze employee performance and attrition trends using Python and Pandas.
- Designed SQL queries for data extraction and created interactive Power BI dashboards identifying attrition drivers and workforce trends.

Cricket Data Analytics — Python, Web Scraping, Power BI

- Collected and processed cricket statistics via web scraping, then performed exploratory data analysis to surface meaningful insights.
- Developed interactive Power BI dashboards to analyze player and team performance and support data-driven decision-making.

EDUCATION

B.E. in Mechanical Engineering — RV College of Engineering, Bangalore

2021 – 2025

CGPA: 6.08 / 10.00

12th Grade — Sree Ayyappa Public School, Bokaro

2021

Percentage: 89%

10th Grade — Loyola School, Taldanga

2019

Percentage: 89%

CERTIFICATIONS

- Data Structures and Algorithms — Internshala
- Design, Technology and Innovation — NPTEL
